*Huge Range of Fragrance Oils*  
Our oils are suitable for use in  
Candles, Soaps & body products

## Instructions for making Incense Cones

Take 1 part fragrance and add 2 parts DPG to it.

For example 20ml of DPG for 10ml of fragrance oil is what you need to scent approx. 20 cones

Soak your incense sticks or cones in fragrance mixture for 24 hours.

Remove from fragrance and allow to dry at ROOM TEMP for at least 48 hours. Please note: drying times take a lot longer for cones due to their thickness & humidity

Note: when making scented incense, do not use full-strength fragrance without the DPG added...the incense will smoke terribly

### Ingredients

- 100 Cones
- 100ml DPG
- 5X 10ml Fragrance Oils

Enjoy!!!!!!
