Instructions for making Incense Sticks

Take 1 part fragrance and add 2 parts DPG to it.

For example 20ml of DPG for 10ml of fragrance oil is what you need to scent approx. 20 sticks

Soak your incense sticks or cones in fragrance mixture for 24 hours.

Remove from fragrance and allow to dry at ROOM TEMP for at least 48 hours.

Note: when making scented incense, do not use full-strength fragrance without the DPG added...the incense will smoke terribly
