Instructions for making Lip Balm

To make 100gm of lip balm

Melt lip balm base with 1 pk of stevia and up to 5% of flavouring (please note that some fruity flavours don't require as much) make sure lip balm base is completely melted when adding stevia and flavor. The heat will allow the stevia to dissolve.

Once all is mixed and dissolved you can now pour into your tubes/pots with the pipettes

Ingredients

- 100gm Base
- 1X 10ml Fragrance Oil
- 1 Pk Stevia
- 1X 3ml pipette
- 10X Pots
- 10x tubes

Enjoy!!!!!!
